

The Shared Goal Achievement Experience

A powerful day and a half where participants take a deep dive into the concepts, tools and methods that drive engagement and build capability for strategy execution

You'll see results...

Individuals & teams align to Greater Goals

Everyone gets connected & engaged!

Skills grow in strategy execution & change management

Bridges are built to key stakeholders

Success is built on breakthrough innovations

People powerfully align to their own Greater Goals

The Shared Goal Achievement™ Experience brings leaders and their teams into an intensive, interactive learning environment that accelerates development of their capability to execute critical strategies.

To increase organizational effectiveness:

- Clarify what matters most and affirm critical team strategies
- Identify untapped strengths and possibilities to advance
- Confirm commitments and refresh specific action plans
- Recognize progress, new opportunities and contributions to success

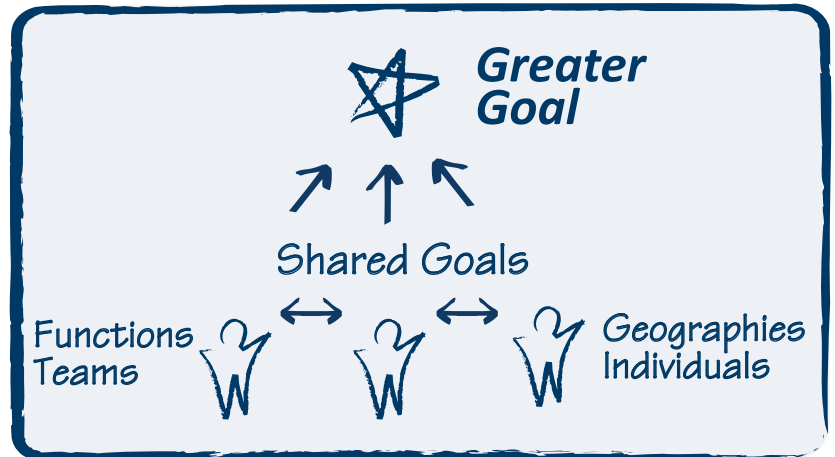

Enterprise success requires coordinated action toward Greater Goals. The critical strategies of multiple teams and individuals must intersect and align effectively.

We will help you achieve this goal.

Achieve Strategies - Develop Leaders

Shared Goal Achievement: A strategy execution framework that translates critical strategic goals into powerful breakthroughs at every level of the organization

- Produces strategies capable of achieving Greater Goals
- Creates clear, coherent action plans that align and leverage multiple strategies, goals and tactics and assign best talent to breakthrough opportunities
- Builds whole-hearted commitment from individuals and teams whose goals and strengths are aligned with those of the organization

Alignment is Key

Whole-hearted alignment of goals at every level of an organization creates an environment of authentic service and value for all stakeholders. Organizations aligned in this way consistently out perform those that aren't.

Leader and Team Development helps leaders help teams to achieve shared goals

Almost every encounter your leaders have with others is an opportunity to positively influence the overall performance of your organization and the performance of individuals and teams.

ThirdRiver Partners' Initiative Based Development process develops leaders in the context of achieving significant breakthrough projects critical to the organization's ongoing success.

This process equips leaders to:

- Identify, build on and deploy their and others' strengths, creating high performing, diverse teams
- Be resilient and adaptable through turbulent change
- Build business acumen and confidence in strategy execution
- Set new, higher goals to meet the next crucial challenges

ThirdRiver
PARTNERS
Leadership. Strategy. Success.
